Website: www.familycookproductions.org

State of Incorporation: New York

Mission Statement: To bring people of all ages together around delicious, affordable fresh food to positively impact their health and well-being.

What We Do: FamilyCook Productions is a non-profit organization with 20+ years of experience in developing and disseminating evidence-based nutrition education curriculum. Our mission: to bring people of all ages together around delicious, affordable fresh food to positively impact their health and well-being. We use a train-the-trainer model to embed hands-on nutrition education in schools, community organizations, WIC Centers, and clinical settings across NYC and 11 other states of the US. Together with our partner organizations our programs provide transformative new skills to 10,000 families annually in the most underserved regions of the US. To date, we have reached over 370,000 families in more than 30 states of the US. Our regular program evaluations have revealed sustained healthy food behavior up to 7 years post program. These outcome reflect our our Framework for 10 Experiential Drivers of Behavior Change published in a peer-reviewed journal specific to culinary nutrition education.
